MERCURY BELOW ZERO

Advent of Winter Causes Great Distress Among the Poor.

SCARCITY OF FUEL AT MANY POINTS.

Deaths at Chicago Attributable to the Cold—Livestock Suffering in the West—Fierce Snow-storm in the East.

Chicago, Dec. 8.—The cold wave that bore down upon this city, accompanied by a slight snowfall, reached its climax with zero temperature. Five fatalities, from causes directly attributable to the weather, have been reported to the authorities and numerous cases of destitution incident to the sudden drop in temperature were afforded relief. Delay to traffic on the railroads, street railways and elevated roads is general, many of the suburban trains being from 20 minutes to half an hour late, while through trains from the east and west are reported from two to six hours late. The shortage of coal supply was severely felt for the first time in many quarters, the suffering being not entirely confined to the poorer classes, but many people in more fortunate circumstances suffered from inability to secure fuel.

Drops Below.

Milwaukee, Wis., Dec. 8.—Reports from Wisconsin and upper Michigan cities show the weather to be very severe. At Madison, Wis., it is 2 degrees below zero. All trains in the western and central parts of Wisconsin are from 30 to 50 minutes late. At Lacrosse the temperature is 2 degrees below zero, and it is growing steadily colder. Reports received at Oshkosh indicate that stock in the surrounding country are suffering from the intense cold. Marinetta says that the weather is a good thing for the logging interests, and that active work has begun in all the lumber camps.

Blizzards in the North.

Seattle, Wash., Dec. 8.—Steamer Cottage City, arriving from the north, reports heavy gales and continuous snow from Lynn canal to Vancouver island. Captain Wallace says he never experienced such wind, accompanied much of the time by blinding snow. The storm began Dec. 1, and while doing no great damage it nevertheless endangered shipping. Telegraph wires between this city and Lynn canal and from Skagway to Dawson have been down since Tuesday.

Freezing in the South.

Louisville, Dec. 8.—Freezing temperature overspread the south of the Ohio river to a line touching North Alabama, Mississippi and North Texas, the thermometer in many places recording the coldest weather of the winter. Rain fell in Southern Texas, and much snow is reported from various points in North Texas and Oklahoma.

Navigation Suspended.

Cleveland, Dec. 8.—More than six inches of snow has fallen in this section during the past 36 hours. The government thermometer registered 12 above. The severe weather has caused the almost total suspension of navigation. The big passenger steamer City of Cleveland reached this port from Detroit during a fierce gale. She was covered with ice.

Over a Foot of Snow.

Corry, Pa., Dec. 8.—The northwestern part of Pennsylvania is in the grasp of a howling blizzard. During the night over a foot of snow fell and a fierce wind is drifting it high in many places. The railroads have their snow plows in operation keeping the tracks clear. Trains on all roads in this vicinity are delayed.

Moderating in Nebraska.

Omaha, Dec. 8.—The mercury went to the zero mark throughout Nebraska and western Iowa, but the reports indicate moderating weather, with snow falling in several places. The present cold snap has been particularly serious in this city because of the small supply of coal and the fear that it will soon be exhausted.

Reached Zero.

Detroit, Dec. 8.—This is the coldest day of the season in Detroit and Michigan. Snow fell in furies. Algon reports 12 above zero, and at Sault Ste. Marie the thermometer registers just zero. High winds are blowing on Lake Huron. Middle Island station reports a 42-mile wind with heavy snow.

The Coldest of the Season.

Kansas City, Dec. 8.—Monday was the coldest of the season in this part of the southwest, the temperature being close to the zero mark. At Kan-

sas City the Missouri river is filled with floating ice, the first this year. Throughout Kansas and the territories a further fall of temperature is expected.

Blizzard Raging.

Rochester, N. Y., Dec. 8.—A severe blizzard is on here. The thermometer is down to 20 and steadily falling. Atodus the wind is blowing 45 miles an hour. There is no coal to be had there and many persons are suffering.

STRIKE COMMISSION.

Further Testimony Offered in Behalf of the Anthracite Miners.

Seranton, Pa., Dec. 8.—President Mitchell of the miners' union, who has been in constant attendance at the hearings of the strike commission, was not present, having gone to New York to attend the meeting of the civic federation. Commissioner Clark, who, as national president of the Order of Railway Conductors, is also a member of the federation, did not go.

Immediately after the opening of the session, Chairman George Gray said to the lawyers for the companies and the miners that the statements of earnings, hours, number of men employed and data of that kind should be in the hands of the commission. The commissioners, he said, are very anxious to examine these statements.

The first witness called was James Gallagher, a Markle employe, who was on the stand Saturday. He said it used to be the custom of the Markle employes to contribute \$50 to the family of a man killed in the mines, and the men working with the man would lay off, until the man was buried. The Markles made a compact with the workmen whereby they would pay the \$50 and the men remain at work. The witness said the size of the mine cars has steadily been increased, but the wages have not been raised.

Frank Rea, a practical miner employed in the Markle mines, was then examined on conditions under which the men are working. It was mostly of a technical character.

Reed's Remains at Portland.

Portland, Me., Dec. 8.—The body of former Speaker Thomas B. Reed arrived in this city from Washington. Two cars, in one of which the body rested, while in the other Mrs. Reed, the widow, and friends comprised a funeral section of the Federal express. Accompanying the body besides the widow and Miss Catherine, the daughter of the former congressman, were Amos L. Allen, Mr. Reed's successor in the house of representatives; Asher C. Hinde, his parliamentary clerk while speaker, Augustus G. Payne of New York, a close personal friend, and Mr. and Mrs. C. D. Barrows.

American Health Association.

New Orleans, Dec. 8.—Three hundred delegates and visitors to the thirtieth annual convention of the American Public Health association and constituent bodies are in New Orleans. The program of business and entertainment will extend over five days. The first meeting was the fourth annual session of the bacteriological branch of the association. It is composed largely of the advisory council of the association, with representatives from the United States, Canada and Mexico, and devoting itself to scientific research in matters pertaining to sanitation.

Name of New Cup Defender.

New York, Dec. 8.—When the new cup yacht is launched from the Herreshoffs' shop in April she will probably be christened the Eagle. The name will be popular because it is representative and natural. It suggests strength, speed and fearlessness. Should the Eagle survive the trials for the selection of a cup defender and meet the approval of the members of the committees on the challenge when they come together in Newport to name the boat that will represent the club in the international races, there should be no fear for the cup.

First Newsboy to Cry Aloud.

New York, Dec. 8.—Henry L. Gatchitt, who, as a lad, was the first newsboy in New York to cry his papers aloud, has just died at his home in Brooklyn, a rich man. He was born on the east side and sold papers in the streets when the site of Cooper Union was a cornfield. Acting on an inspiration one day he took up his position in Park Row and began calling out the names of his papers, and an inkling of their contents to passers-by. The present "extra" yell of the newsboy is dated from that time.

Jamestown, N. Y., Dec. 8.—An average of two feet of snow has fallen in Chautauqua county during the last 24 hours. Streetcar traffic is blocked, railroad trains are greatly delayed and country roads are almost impassable.

TRIBUTE TO THE DEAD.

House Adjourns Out of Respect to the Memory of Thomas B. Reed.

APPROPRIATE RESOLUTION ADOPTED.

Deceased Called One of the Most Famous of Parliamentarians. Hearings on the Immigration Bill—Deaths of Senate.

Washington, Dec. 8.—The house paid a remarkable tribute to the memory of ex-Speaker Thomas B. Reed, who died in this city after midnight Sunday. His death had created a profound impression and there was a universal desire among the members that the house show a signal mark of respect to his memory. For the house to take action on the death of a former member had only three precedents in its history, namely, on the occasions of the death of Benton, Blaine and Alexander Stephens, when the house adopted resolutions and adjourned out of respect to their memories. It was decided to follow these precedents in the case of Mr. Reed.

THE LATE THOMAS B. REED.

The chaplain at the opening of the session paid a feeling reference to the death of the ex-speaker. No business was transacted beyond the formal reading of two messages from the president and an arrangement to postpone the special order—the London dock bill—until Tuesday.

Mr. Sherman (N. Y.) then, amid profound silence, arose and in a few feeling remarks offered the following: "Resolved, that the following minutes be spread upon the record of the house of representatives:

"Hon. Thomas Brackett Reed died in Washington Dec. 7, 1902. For 22 years he had been a member of this house; for 6 years its speaker. His services terminated with the Fifty-fifth congress. Within this chamber, the scene of his life's great activities, was laid. Here he rendered services to his country which placed him in the front rank of American statesmanship. Here he exhibited characteristics which compelled respect and won admiration. Forceful ability, intonations which compelled respect and brought him popular fame and congressional leadership. In him depth and breadth of intellect with a full and well rounded development had produced a giant, who towered above his fellows and impressed them with his power and his wisdom.

"A distinguished statesman, a lofty patriot, a cultured scholar and incisive writer, a unique orator, an unmatched debater, a master of logic, wit, satire, the most famous of the world's parliamentarians, the great representative citizen of the American republic, has gone into history.

"Resolved, that in honor of the distinguished dead the house now adjourn."

In the Senate.

After some routine business in the senate, Mr. Quay (Pa.) sent to the desk and had read the resolutions adopted by the Indian territory executive committee on territorial legislation in opposition to the statehood bill combining Oklahoma and Indian territory, expressing sympathy for Oklahoma in her efforts to secure statehood, appealing for some form of local self-government, such as is provided for in what is known as the Moon bill, and denouncing certain people, who, it is charged, have misrepresented the desires of the citizens of Indian territory with regard to joint statehood with Oklahoma.

Hearing On Immigration Bill.

Washington, Dec. 8.—The senate committee on immigration gave a hearing on the bill restricting immigration now pending in the senate. Goodwin Brown, representing the New York lunacy commission, urged that the bill be amended so as to provide for the deportation of aliens who become public charges within two years. He said that during the last

10 years the foreign born insane cost the various states \$50,000,000. He offered an amendment carrying out his suggestion. Commissioner Sargent of the immigration bureau said the head tax of \$3 in the bill should be retained, as it would serve to keep out many immigrants. Commissioner Williams of New York urged that strict regulations at Ellis Island be enforced, saying there was a great deal of perjury. He also favored the sale of liquors at immigrant stations.

LIVES LOST

In a Fire That Consumed a General Store and Dwelling.

Menominee Falls, Wis., Dec. 8.—Fire destroyed the general store and dwelling of Max Manthey, 60, at Colgate, five miles north of here. Mr. Manthey lost his life in attempting to escape, and a child was burned to death. Another child was probably fatally injured. Several others escaped with less serious injuries. The servant girl detected the odor of smoke and called Mr. Manthey. He found the store filled with smoke and flames and called to his family to jump from the windows. He jumped first and slid down a porch, a distance of 12 feet. He fell to the ground on his head breaking his neck, causing his death a few minutes later. One child, 3 years old, fell downstairs head foremost, running a nail into her head and probably into her brain. She is not expected to live. Another child fell on her shoulder, breaking it, and another child broke a collar bone. In the excitement a child eight years old was forgotten and was burned to death while in bed. The mother and two children were the only ones to escape injuries.

MASCAGNI'S WOES.

Several Unpleasant Incidents Mark His Short Visit to New York.

New York, Dec. 8.—Guarded by the police, Pietro Mascagni, the Italian musical composer, has come to New York and given a concert at the Herald Square theater. Among the incidents that marked the company's short visit in New York were a march down Fifth avenue surrounded by 50 policemen and detectives in plain clothes to protect the Italian artists from bodily harm, a performance under the protection of the police, a strike of musicians for back pay and a second strike for pay for the night's concert; and, as a slight alleviation to the wounded spirit of the master, a presentation to Mascagni of a gold watch from his company in honor of his birthday. Just why Mascagni and his company needed such thorough police protection does not appear, although the composer's representatives say that owing to the trouble in Boston, in which he was twice arrested on civil suits, there was cause for fear that the company would suffer violence here.

Purchased Dan Patch.

Minneapolis, Dec. 8.—M. W. Savage of the International Stock Food company has bought Dan Patch, the famous unbeaten pacer, of T. E. Stuyvesant of New York for \$60,000. M. E. McHenry, who has driven the horse many a fast mile and scored 1:59 1/4 with him, has signed a contract with Mr. Savage to handle the horse for the racing season of 1903-4. The pacer is to be brought here and wintered and spend the stud season at the International Stock Food farm. The price is the highest ever paid for a pacer.

Secretary Shaw's Request.

Washington, Dec. 8.—Secretary Shaw has written a letter to Chairman Payne of the house committee on ways and means recommending a modification of existing law so as to allow the free withdrawal of tea from bonded warehouses for the purpose of consumption. The secretary urges that this action, to be accomplished either by amendment of section 20 of the customs administrative act, or by a special act allowing the free withdrawal of tea now in warehouses, is necessary to avoid great hardship to tea merchants.

John Dillon Still Ill.

New York, Dec. 8.—John Dillon, one of the leaders of the Irish Nationalist party, is at the Hoffman House with his wife, who arrived on the Umbria from Europe. Mr. Dillon, who had been ill in Chicago, and who had just arrived here, was affected materially by his trip and was obliged to take to his bed at the hotel and deny himself to callers. While his condition is not considered serious, Mrs. Dillon said that he was too ill to see anybody.

Child Left Alone.

Columbus, O., Dec. 8.—While her mother was away from home Marie Johnston, colored, aged 5, set fire to herself in her mother's room in the basement of 61 South Scioto street, and burned herself so severely that death ensued a few hours later.

SEND AN ULTIMATUM.

Great Britain and Germany Unite Against Unhappy Venezuela.

BALFOUR ENLIGHTENS THE COMMONS.

Vigorous Measures to Be Taken If a Satisfactory Reply Is Not Received—British Premier's Statement in Full.

London, Dec. 8.—Premier Balfour announced in the house of commons that an ultimatum had been sent to Venezuela and that in the event of a satisfactory reply not being received, the British and German governments would take measures to enforce their claims against that country.

Mr. Balfour, when questioned on the Venezuelan situation by the Liberal leader, Sir Henry Campbell-Bannerman, said: "For the past two years we have had grave cause for complaint on various occasions of unjustifiable interference by the Venezuelan government with the liberty and property of British subjects. No effort has been spared by the British government to obtain an amicable settlement of these cases, but in none of them have satisfactory explanations been forthcoming. Latterly, the representations of the British minister have been practically unnoticed. There also are cases in which British subjects and companies have large claims. We have been acting in conjunction with the German government, which also has large claims against Venezuela. A final communication has been sent to the Venezuelan government by the British minister and the German charge d'affaires. If no satisfactory reply is received, the governments have decided to take such measures as necessary to enforce their claims."

Replying to a supplementary question, Mr. Balfour said he understood the communication to Venezuela was neither joint nor identical.

Paul Dunlevy, another former Markle employe, said he was given six days' notice to leave the house. Two days after the time limit expired his goods were placed on the road. He was in arrears in his rent about five or six months during the strike. He was not asked to pay his rent nor were his goods levied upon.

Active Volcanoes in Samoa.

Tutuila, Samoa, Nov. 24, via San Francisco, Dec. 8.—On Nov. 1 the Samoans at the western extremity of the group of islands of Savili were startled by severe shocks of earthquakes which lasted throughout the night and morning. Some of the shocks were severe enough to throw down a concrete church and wreck several others. Then fire was seen to burst forth from several of the mountain peaks and the people fled in terror to places they considered safe. The extinct volcanoes now active are towards the west of Savili in German Samoa. Tradition speaks of a violent eruption about 150 years ago, when that portion of the country was a flowing stream of molten lava. The fires at present are observable at four peaks of the mountain ridge.

Municipal Trading.

London, Dec. 8.—It is reported here that Premier Balfour will appoint a royal commission to inquire into the subject of municipal trading. The government has long been desirous of grappling with this question which admittedly raises an issue of the first importance. The success of municipal trading in certain large municipalities is encouraging smaller bodies to embark upon undertakings for which they possibly are not qualified. Over a dozen municipalities have this year applied to parliament for power to deal not only with the ordinary admission of an electrical system, but also with those developments and accessories which hitherto have been left in private hands.

Child Fatally Burned.

Portsmouth, O., Dec. 8.—Ellie, the little daughter of Mr. and Mrs. Melvin Jones of New Boston, met a sad fate at her home. The little tot's clothes caught fire from an old fashioned fireplace, and, as the child was alone, died before assistance could be had.

Damaged By Fire.

Columbus, O., Dec. 8.—Fire damaged the building at 32 East Spring street to the extent of \$4,000, several merchants sharing the loss.

"LITTLE RHODY'S" DEMOCRATIC GOVERNOR.

Dr. L. F. C. Garvin, who has the rare distinction of having been elected Governor of Rhode Island as a Democrat, is what the people of his State have been accustomed to call a crank. He got into the Lower House of the Legislature in 1883, and since that time has served almost continuously, either in the House or Senate. He began at once to introduce bills of all sorts, which were generally pigeonholed. The dilemma which this brought about is thus described by the Providence Journal.

"It became a serious problem. The supply of pigeonholes at the old State House was soon exhausted. 'What shall we do?' cried the legislators. Either we must have more pigeonholes or they must stop sending the good Dr. Garvin to the House!' There was but one alternative. More pigeonholes were a necessity; Dr. Garvin continued to be re-elected, and the only alternative was the Marble Capitol, with its acres of basements and sub-basements, affording, as the Republican managers thought, ample pigeonhole facilities to last the remainder of Dr. Garvin's legislative career."

But Dr. Garvin accomplished something more than forcing the erection of the new Capitol to supply pigeonholes for his rejected bills. Largely through his influence, and always with his support, some very important reforms were carried through. Among these was the old landed property qualification for foreign-born voters, the change in the Constitution by which State officers can be elected by a plurality instead of a majority vote, a secret-ballot law, a State Bureau of Industrial Statistics, a factory-inspection act, a ten-hour law and others of minor importance. What is called the Bourn amendment reported by Dr. Garvin, nearly doubles the voting population of Rhode Island.

Now that there are pigeonholes enough in the Capitol, Rhode Island needs a few more legislative cranks like Dr. Garvin.

EXTRA MILLION

Will Be Invested at Collinwood if the Election Goes "Dry."

New York, December 6.—A Cleveland dispatch to the Herald is as follows:

The Lake Shore Railroad has indirectly taken a hand in the fight for a prohibition of the liquor traffic in the suburban villa of Collinwood, which is being conducted by the Anti-Saloon League on a local option basis.

The election is to be held next Thursday. The Lake Shore road has given the residents to understand that if the town goes "dry" it will double the sum it had decided to expend upon its new shops in Collinwood, making the total \$2,000,000. It is also said that if the town goes "dry" a big allotment of land will be purchased, and that lots will be sold at cost to the employees of the Lake Shore Company.

"The additional expenditure of a million dollars in Collinwood will not be made if the town votes wet," said W. H. Marshall, Superintendent of the Lake Shore road, to-day. "Under the conditions which exist in the town we cannot get the sort of skilled help we want. Men do not remain long if they do come."

The late T. A. Mitchel carried \$5,000 life insurance in the Equitable.

The saloon license at Vanceburg has been fixed at \$150 for next year.

The city levy at Vanceburg has been fixed at 75 cents on the \$100 for 1903.

Rev. Joseph Severance tendered his resignation Sunday as minister of the Mayfelck Christian Church.

Mr. Robert T. Taylor and family have removed from Warren County to Oklahoma territory, where they will make their home.

John Kennedy, a young man living at Carlisle, brakeman on the L. and N., while coupling cars at Flannagan Station last night was so badly injured that he died this morning.

"A Millionaire Tramp" Again To-night. A fair-sized audience were pleased with "A Millionaire Tramp" last night. The company having to-night open, will repeat the performance and should have a big crowd. Prices: Lower floor, 30c.; balcony 20c.; gallery 10c.

A Christmas Opportunity

TO MAKE A GIFT TO YOURSELF OR ANOTHER.

Just received a consignment of 100 Women's Coats from the manufacturer with instructions not to return one if price will sell them. The warm season has overstocked every coat factory in the country, and this is a plan one manufacturer has evolved to unload the overplus. Some one is losing heavily but don't misplace sympathy, we're not the sufferers. The coats are valued from \$7.50 to \$10 and will be sold at the uniform price of \$3.75. An unprecedented bargain. Not last year's styles. Not shop worn stock. Not inferior qualities. But garments faultless in cut, finish, material and trimming. Made with stylish box fronts, semi-fitting backs and vary in length from 24 to 27 inches. Colors, castor, black, gray and many shades of tan. Such values cannot remain long in the house—forewarned, forearm, come early. Winter has just begun, four full months of severe weather predicted. Don't be cold, don't be out of date, don't be extravagant. Be comfortable, stylish and thrifty by buying now and here.

D. HUNT & SON

Every Day

My immense purchases for the winter trade are coming in. Having bought early and in large quantities for cash, I am in shape to successfully meet any and all competition. I carry in stock only the very best goods, and I can always guarantee satisfaction. I want to call special attention to my very large purchase

Fancy New Crop Open Kettle

MOLASSES

These goods I bought direct from the plantation in Louisiana and have no middleman's profit to pay; therefore I am position to make specially low prices and at the same time furnish my trade with the purest and finest goods made. My stock of CANNED GOODS is also enormous, bought direct from the packers in carload lots. In these goods there have been large advances since I bought, therefore I can make prices to my trade very much below the prices now asked by many of the largest jobbers. In all other goods in my line I have the largest stock and greatest variety. I handle no "cheap-jobs," unwholesome or poisonous goods.

NOTHING BUT THE VERY BEST!

This I claim is the secret of my success in Maysville in building up a trade of which I feel I am justly proud and which I am determined to hold by at all times furnishing the very best goods at reasonable prices. My house will continue to be the headquarters for Buttery, Game, Oysters, Cranberries, Celery, Oranges and Fruits of all kinds. Try my Plymouth Rock Oysters in bulk and can—fresh from Baltimore every day—none better. My fine Blended Coffee and Perfection Flour are continually growing in favor. When you want the best try them. My purchases of specialties for the Holiday trade are unusually large. I extend a special invitation to people from the county to make my house their headquarters when in our city. Special prices on all goods to dealers who buy in quantities.

While in Bath County last week Mr. P. P. Parker witnessed the "shooting" of an oil well. About thirty quarts of nitroglycerine were used. The well was over 400 feet deep, and when the "go-devil" was dropped, there was a violent shaking of the earth, and then the water and oil shot up high into the air. This well is in the vicinity of Mr. Parker's 2600 acres of land.

Geo. D. Young, eldest son of F. M. Young formerly of this city, has for a number of years been manager of branch houses of the publishing house of P. F. A NEW WAY OF

ADVERTISING!

We spend hundreds of dollars in the newspapers and hundreds of dollars in many other ways of advertising. The new way—read while we unfold our new plan to you. We have arranged a table in the front of the store where we will place on sale thousands of articles from now until Christmas.

All Go at 25c. Each!

Seventy-five per cent. of these articles are worth from 40c. to \$1. Fifty per cent. of these articles cost us more than 25c. Our loss in this department will be our new way of advertising, our new way of giving to our customers the money we would spend in other ways.

You will be surprised to see the beautiful wares on this table. Ask to see the 25c. table.

TOOK HIS LIFE.

Sad Death of Samuel A. Smith—Funeral to Take Place Wednesday Morning.

The funeral of Samuel Smith, whose death was briefly mentioned Monday, will take place Wednesday at 10 a. m. at the home of his brother, Dr. T. H. N. Smith, Rev. Dr. Barbour officiating. Burial private.

Mr. Smith was found dead in his room on second floor of the building west of the M. E. Church, South, just as the Bulletin was going to press Monday. The last seen of him alive was on Friday evening. A wound in the right temple showed the cause of his death. Several persons heard the shot between 10 and 11 o'clock Friday night, but the alarm of fire, caused by the burning of the Powers house, took their attention away from the matter and it had passed out of their minds.

The appearance of the room showed he had lived some time after he was shot, and had staggered about the room, finally falling near the door where the body was found. He had not disrobed, and his clothing, the bedding and other articles were covered with blood. The pistol used was a .38 calibre, and it's a mystery how he survived as long as he did. The coroner's jury found that he came to his death by his own hand.

Mr. Smith was a son of the late James Smith and was about forty-four years old. Two brothers and three sisters survive him.

Lewis Jefferson and Hattie Jordan, colored, were granted marriage license this morning.

There was preaching at the Washington Christian Church last evening, and services will be held to-night.

The Missionary Institute of the Maysville District of the M. E. Church, South, will convene at Vanceburg December 16th and 17th.

The funeral of the late Mrs. Dr. Shackelford takes place at 2 o'clock this afternoon at the First Baptist Church, Rev. Dr. Porter, of Newport News, and Rev. H. C. Mansellman, the new pastor, conducting the services.

RIVER NEWS.

**A Writer Suggests That the Proposed Dams
Could Be Utilized for Operating
Electric Plants.**

Rev. T. S. Buckingham of Washington in a letter to the BULLETIN, says:
The movement on foot to lock and dam the Ohio ought to meet with entire and hearty approval, and nothing ought to be left undone to secure such a boon for the immense population inhabiting the Ohio valley. One thing, however, has been left out of the scheme, at least in all accounts I have read of it. And as it is so obvious, wonder may be expressed at its omission. When dams are constructed, for several months in the year there will be a vast amount of water running over, and running to waste. Turbines could be put in that would produce electricity enough to do the work of the valley. There is enough power going to waste in the Ohio to turn every wheel in every town on its banks, and then some. The power produced in the way indicated above would be an abiding source of revenue to the Federal Government, and pay good interest on the outlay. The idea is respectfully suggested to those having charge of the scheme. The Representatives in Congress will stand a much better show of getting what they want when there is something coming back. The Hindoo proverb holds good all round—"You can get nothing for nothing and deuced little for a penny."

"The Strollers" Coming to Maysville.

The "Marguerite Sylvia Comic Opera Company," presenting George W. Lederer's musical play, "The Strollers," will be seen in Maysville, Dec. 20th. This is the first visit of the play to the West. Miss Sylvia last year appeared in Willard Spencer's opera, "Miss Bob White," and the previous season she was the feature and star of the "Princess Oble" company. She is surrounded by a company of comedians which contains many notable names, and an entire scenic production is carried.

A Helpless Child.

A week and puny child is badly handicapped in the battle of life. It is isolated from the healthy enjoyments of its little fellow-beings. It cannot partake either of their play or their sturdy work and progress in the world; its whole life is embittered by incapacity and weakness. Any woman who expects to become a mother ought to know that Dr. Pierce's Favorite Prescription will do both for her own health and safety during her time of trial and also to insure her in bequeathing a fair measure of health and strength to the prospective little one.

FARMS FOR SALE.

I offer at private sale choice of several fine tracts of land, situated on Maysville and Lexington turnpike, two miles South of Maysville. The lands are strictly first-class—no better in Kentucky. The improvements are good and in fine repair. On one tract of 195 acres is a nice frame house of eleven rooms and two halls, a beautiful yard shaded by forest trees—in fact a lovely home such as is seldom found on the market. Has a large Tobacco Barn 84 by 48 feet, eight feet high in center, good Stables, Ice House, Poultry House, two-story Cabin for cook, and all other necessary outbuildings. It is well watered and has fifty acres in wheat, the balance in grass. Also one tract of 100 acres, all in grass, or one of 244 acres, with 51 y. acres in wheat, the balance in grass—all adjoining, and of the same high grade lands—well improved and under a high state of cultivation. Terms to suit purchasers. Call and see what I have if you desire to purchase a nice home and a first-class farm.
